Category	Description
Mineral, Chemical, Synthetic based Ingredients	A chemical
Mineral, Chemical, Synthetic based Ingredients	A chemical
Dairy Ingredients	It is a milk protein obtained commercially from skim mi
Grain & Plant based Ingredients	It is a gum obtained from plant source
Ingredients from Egg and Fish	It is made from egg white
Haram Ingredients from Alcoholic Fermentation	Alcohol is used as a solvent in natural and artificial flavou
Haram Ingredients from Alcoholic Fermentation	Alcohol made in dry form.
Grain and Plant based Ingredients	It is a gum obtained from seaweeds.
Grain and Plant based Ingredients	It is a spice of plant origin
Mineral, Chemical, Synthetic based Ingredients	A chemical preservatives
Mineral, Chemical, Synthetic based Ingredients	A chemical
Mineral, Chemical, Synthetic based Ingredients	A chemical
Grain and Plant based Ingredients	It is an enzyme obtained from plant and bacterial sources
Grain and Plant based Ingredients	It is a spice of plant origin
Grain and Plant based Ingredients	It is a natural colour extracted from plant pigment withou
Grain and Plant based Ingredients	It is a starch obtained from plant rhizomes
Mineral, Chemical, Synthetic based Ingredients	Artificial colours or FD&C colours are chemical dyes and t
Mineral, Chemical, Synthetic based Ingredients	Artificial Flavours are usually made from chemical and syr
Mineral, Chemical, Synthetic based Ingredients	A chemical
Mineral, Chemical, Synthetic based Ingredients	A synthetic sweetener
Mineral, Chemical, Synthetic based Ingredients	A chemical enrichment for flours
Haram Ingredients from Pig	It is part of pig stotomach
Haram Ingredients from Pig	Bacon bits are obtained from pork stomach
Grain & Plant based Ingredients	It is a single celled plant which ferment sugar into carbon
Extract Grain & Plant based Ingredients	It is a flavouring agent obtained as soluble of mechanicall
Mineral, Chemical, Synthetic based Ingredients	A chemical leavener
Mineral, Chemical, Synthetic based Ingredients	A chemical leavener
Grain and Plant based Ingredients	It is a spice obtained from plant source
Grain and Plant based Ingredients	It is a spice
Haram Ingredients from Alcoholic Fermentation	It is a fermented alcoholic drink
Haram Ingredients from Alcoholic Fermentation	These are coating on meat and fish products containing b
Haram Ingredients from Alcoholic Fermentation	Actual beer is added as an ingredien
Grain and Plant based Ingredients	It is pure wax obtained from the honeycomb of the bee
Mineral, Chemical, Synthetic based Ingredients	A chemical flavouring
Mineral, Chemical, Synthetic based Ingredients	A chemical preservatives
Grain and Plant based Ingredients	Beta Carotene is natural colour obtained from plant but il
Mineral, Chemical, Synthetic based Ingredients	A chemical preservative but always available with fat basi
Grain and Plant based Ingredients	It is out part of a cereal seeds
Ingredients from Plant	Brewer yeast is a single celled bacteria. In food prod
Grain and Plant based Ingredients	It is a type of wheat
Dairy Ingredients	It is Halal if it is Halal or Kosher certified because of sourc
Dairy Ingredients	Buttermilk solids are obtained from buttermilk. It is Halal
Grain and Plant based Ingredients	It is odourless powder occur in tea leaves and coffee bear

It is fully refined, bleached, and deodorized oil obtained f  
 It is a colourant obtained from the control heat treatmen  
 It a plant spice.  
 A cellulose gum.  
 It is a plant based spice.  
 It is plant wax obtained from leaf buds leaves of Brazilian  
 It is a cocoa substitute obtained from pods of carob tree.  
 It is a gum obtained from the pods of carob tree  
 It is a seaweed gum.  
 Caesinates are milk protein obtained from curding the mi  
 These are starter culture bacteria added to milk to provid  
 Cheese powder is made by drying the cheese. it is Halal if  
 It is a plant based spice  
 A chemical gas  
 It is obtained from coacoa nibs of cocoa beans.  
 It is fluide(liquor) obtained by grinding of cocoa nibs from  
 It is a plant based spice  
 A chemical  
 It is oil obtained from rinds of citrus fruits.  
 It is fat obtained from nibs of cocoa beans  
 It is powder obtained by grinding coacoa presscakes whic  
 It is a nut obtained from coconut palm  
 It is a plant based spice  
 It is a starchy vegetable, like potatoes and peas.  
 It is the outer part of corn seeds  
 It is a flour obtained by grinding corn.  
 It is a corn protein.  
 It is a ground corn  
 It is a oil obtained from corn seeds  
 It is a starch obtained from endosperm of corn seeds  
 It is sweetener obtained from corn.  
 It is a dry form of corn syrup.  
 It is a fruit.  
 Cream is a milk fat obtained by seperating it from mil  
 It is a acid potassium salt of tartaric acid occuring as  
 The enzyme use has to be Halal  
 The cultures added to milk has to be from milk sourc  
 It is a plant based spice.  
 It is a blend of plant based spices.  
 It is obtained from fat. It is Halal only if it is made fr  
 It is a part of plant starch.  
 It is a corn sweetener from corn starch.  
 A chemical  
 It is obtained from fat. It is Halal only if it is made fr  
 It is a plant based spice.  
 A chemical

Dairy Ingredients	Milk is Halal but dryers use to dried milk should not u
Grain and Plant based Ingredients	It is a flour obtained from durum wheat.
Mineral, Chemical, Synthetic based Ingredients	A chemical chelating agent.
Ingredients from Egg and Fish	It is a egg white products.
Ingredients from Egg and Fish	It is egg yolk product.
Ingredients from Egg and Fish	It is whole eggs.
Grain and Plant based Ingredients	Animal source Enzymes are protein obtained from
Ingredients made from plant or animal enzym	Soy lecithin is modified by use of lipase enzyme. It is
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is made from
Grain and Plant based Ingredients	It is a ground particles of durum wheat.
Grain and Plant based Ingredients	It is a plant based spice.
Grain and Plant based Ingredients	It is a plant based spice.
Haram Ingredients from Alcoholic Fermentatic	It is a fermented apple juice
Mineral, Chemical, Synthetic based Ingredient	A chemical
Mineral, Chemical, Synthetic based Ingredient	A chemical
Ingredients from Egg and Fish	It is made from bones of fish.
Grain and Plant based Ingredients	It is obtained by grinding cereal seeds.
Mineral, Chemical, Synthetic based Ingredient	Folic acid is a vitamin B. It is obtained synthetically o
Grain and Plant based Ingredients	A sweetener obtained from sugar or sucrose.
Mineral, Chemical, Synthetic based Ingredient	A chemical
Grain and Plant based Ingredients	A plant based spice.
Ingredients made from animals	It is Haram product if it is made from pig. Many ulem:
Grain and Plant based Ingredients	A plant based gum
Grain and Plant based Ingredients	A plant based spice.
Grain and Plant based Ingredients	A plant based gum
Mineral, Chemical, Synthetic based Ingredient	It is a acidulant and used in chemical leavening.
Grain and Plant based Ingredients	A plant protein
Grain and Plant based Ingredients	Glycerin is a polyhydric alcohol (not ethyl alcol
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is m
Ingredients made from plant or animal fat	Glycerol Monostearate is emulsifier. It is Halal
Grain and Plant based Ingredients	It is a whole wheat flour.
Grain and Plant based Ingredients	It is a fruit.
Grain and Plant based Ingredients	It is a gum obtained from plant.
Haram Ingredients from Pig	It is a pig meat
Haram Ingredients from Alcoholic Fermentatic	It is a fermented apple juice.
Grain and Plant based Ingredients	A sweetener obtained from corn.
Grain and Plant based Ingredients	It is a natural syrup sweetener.
Grain and Plant based Ingredients	A spice obtained from horseradish plant
Grain and Plant based Ingredients	Oil obtained from plant fat
Grain and Plant based Ingredients	A flavor enhancer obtained from vegetable pro
Ingredients made from plant or animal fat	It is Halal if it is Halal or Kosher certified.
Grain and Plant based Ingredients	A plant based sweetener. It is a mixture of dext
Mineral, Chemical, Synthetic based Ingredient	A metal.
Grain and Plant based Ingredients	A tree gum.
Mineral, Chemical, Synthetic based Ingredient	An acid

Dairy Ingredients	Lactose is milk sugar and obtained from whey during cheese production.
Ingredients made from Pig Fat	It is a pig fat.
Grain and Plant based Ingredients	A flavoring obtained from plant root
Grain and Plant based Ingredients	A plant based gum
Grain and Plant based Ingredients	A plant based spice
Mineral, Chemical, Synthetic based Ingredient	A chemical
Mineral, Chemical, Synthetic based Ingredient	It is a Magnesium salt of stearic acid and used as an anti-caking agent.
Grain and Plant based Ingredients	It is another name of corn.
Grain and Plant based Ingredients	It is produced from barley a source of enzyme
Grain and Plant based Ingredients	A product obtained from starch.
Grain and Plant based Ingredients	It is one of the part of starch
Grain and Plant based Ingredients	It is a sugar obtained from maple tree.
Grain and Plant based Ingredients	It is a natural syrup obtained from maple tree.
Grain and Plant based Ingredients	A product whose consistency and application similar to butter.
Grain and Plant based Ingredients	A plant based spice
Haram Ingredients from Pig	Pork gelatin used in making marshmallow
Grain and Plant based Ingredients	A gum composed of cellulose
Grain and Plant based Ingredients	A plant starch chemically modified.
Grain and Plant based Ingredients	A by-product of sugar production from sugar cane.
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is from a Halal animal.
Mineral, Chemical, Synthetic based Ingredient	A chemical.
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is from a Halal animal.
Mineral, Chemical, Synthetic based Ingredient	Monosodium Glutamate is a flavor enhancer and it is a sodium salt.
Grain and Plant based Ingredients	A plant spice.
Grain and Plant based Ingredients	Oleoresin of Spices such as Black Peppers Paprika and others.
Grain and Plant based Ingredients or meat	Natural flavor is made from any natural material including animal products.
Grain and Plant based Ingredients or meat	It is water soluble Vitamin B3. It can be obtained from animal products.
Dairy Ingredients	Milk is Halal but dryers use to dried milk should not use for non-Halal products.
Grain & Plant based Ingredients	A plant based spice.
Grain & Plant based Ingredients	A cereal.
Grain & Plant based Ingredients	Flour obtained from oat cereal.
Grain & Plant based Ingredients	Meal obtained from oats
Grain & Plant based Ingredients	This is a spice extract and acetone is used as an extracting agent.
Grain & Plant based Ingredients	Oil obtained from olive fruits.
Grain & Plant based Ingredients	A vegetable.
Grain & Plant based Ingredients	A plant based spice.
Grain & Plant based Ingredients	Oil obtained from fruit of palm tree.
Grain & Plant based Ingredients	An enzyme obtained from Papaya fruit for tenderizing meat.
Grain & Plant based Ingredients	A plant based spice
Grain & Plant based Ingredients	A plant.
Ingredients made from plant fat	Made from plant fat.
Grain & Plant based Ingredients	A fruit from peanut plant.
Grain & Plant based Ingredients	A gum obtained from citrus peel.
Grain & Plant based Ingredients	A plant fruit.
Mineral, Chemical, Synthetic based Ingredients	A chemical
Mineral, Chemical, Synthetic based Ingredients	A chemical
Grain & Plant based Ingredients	A bulking agent obtained binding dextrose, sorbitol and citric acid.

Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is made from ve
Ingredients made from plant or vegetable	Fat with kosher symbol on food package only It is obtaine
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is made from ve
Ingredients made from plant or vegetable	Fat with kosher symbol on food package only It is obtaine
Ingredients made from plant or vegetable	Fat with kosher symbol on food package only It is obtaine
Haram Ingredients from Pig	It is flesh of swine
Mineral, Chemical, Synthetic based Ingredients	A chemical
Grain & Plant based Ingredients	Starch obtained from potato
Grain & Plant based Ingredients	Starch which is processed to permit swelling in cold water
Mineral, Chemical, Synthetic based Ingredients	Preservative chemical
Mineral, Chemical, Synthetic based Ingredients	It is an antioxidant
Mineral, Chemical, Synthetic based Ingredients	A solvent use in manu flavors, a humectant and obtained
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is made from ve
Grain & Plant based Ingredients	An enzyme which break the protein and it is obtained fro
Grain & Plant based Ingredients	A plant gum
Grain & Plant based Ingredients	Raisins are naturally dried grapes
Grain & Plant based Ingredients	A plant seed.
Grain & Plant based Ingredients	A milk coagulant which is a concentrated extract of renni
Dairy Ingredients	It is a milk protein obatined using rennet to curd the milk.
Grain & Plant based Ingredients	A cereal
Haram Ingredients from Alcoholic Fermenta	It is a liquor
Grain & Plant based Ingredients	A cereal
Mineral, Chemical, Synthetic based Ingredie	A non nutritive synthetic sweetener.
Grain & Plant based Ingredients	A plant seeds
Grain & Plant based Ingredients	A spice obtained from stigma of plant flower and provide
Grain & Plant based Ingredients	A plant spice
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Grain & Plant based Ingredients	A spice.
Mineral, Chemical, Synthetic based Ingredie	Salt obtained from sea. A chemical
Grain & Plant based Ingredients	Coarse granular obtained from durum wheat.
Grain & Plant based Ingredients	A plant seed.
Grain & Plant based Ingredients	A vegetable of onion family
Ingredients from insect secretion	It is a secretion of insect. It is Halal if alcohol is NOT used
Haram Ingredients from Alcoholic Fermenta	It is a wine
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Mineral, Chemical, Synthetic based Ingredie	A leavening chemical.
Mineral, Chemical, Synthetic based Ingredie	A leavening chemical.
Mineral, Chemical, Synthetic based Ingredie	A chemical leavening agent.
Mineral, Chemical, Synthetic based Ingredie	A chemical preservative.
Mineral, Chemical, Synthetic based Ingredie	A chemical preservative.
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Mineral, Chemical, Synthetic based Ingredie	A chemical.
Grain & Plant based Ingredients	A fat based emulsifier and whipping aid, used in egg white
Mineral, Chemical, Synthetic based Ingredie	A chemical.

Mineral, Chemical, Synthetic based Ingredient	A chemical.
Mineral, Chemical, Synthetic based Ingredient	A chemical.
Mineral, Chemical, Synthetic based Ingredient	A chemical preservative.
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is made from vegetable fat.
Ingredients made from plant or animal fat	It is made from polyhydric alcohol such as glycerin which is obtained from vegetable oil.
Mineral, Chemical, Synthetic based Ingredient	A chemical preservative.
Ingredients made from plant or animal fat	It is obtained from fat. It is Halal only if it is made from vegetable fat.
Grain & Plant based Ingredients	It is a humectant and polyhydric alcohol (not ethyl alcohol) obtained from vegetable oil.
Dairy Ingredients	Sour cream solids are Halal only if they are Halal or Kosher.
Grain & Plant based Ingredients	Flour obtained from soybean.
Grain & Plant based Ingredients	It is an emulsifier obtained from soybean fat.
Grain & Plant based Ingredients	Oil obtained from soybean.
Grain & Plant based Ingredients	There are two kind of soy sauce, one which obtained by fermentation of soybean and the other by chemical process.
Grain & Plant based Ingredients	A plant pod.
Ingredients made from plant fat	It is obtained from soybean fat.
Grain & Plant based Ingredients	They are plant based spices.
Grain & Plant based Ingredients	A endosperm of cereal seed.
Grain & Plant based Ingredients	A sweetener obtained from cane sugar and beet.
Grain & Plant based Ingredients	A seed.
Grain & Plant based Ingredients	A starch obtained from roots of cassava plant.
Grain & Plant based Ingredients	An acidulant found in grapes. It is made from crushed grapes.
Mineral, Chemical, Synthetic based Ingredient	A chemical antioxidant and comes with a carrier. It is Halal.
Grain & Plant based Ingredients	It is a B1 vitamin. Thiamine can be produced synthetically.
Mineral, Chemical, Synthetic based Ingredient	A chemical.
Grain & Plant based Ingredients	A fat soluble vitamin E obtained either from plant or animal sources.
Grain & Plant based Ingredients	It is a soybean curd obtained by adding a coagulant to soybean curd.
Grain & Plant based Ingredients	A plant gum.
Mineral, Chemical, Synthetic based Ingredient	A chemical.
Grain & Plant based Ingredients	Turmeric is a colorant spice obtained from the root of the turmeric plant.
Grain & Plant based Ingredients	Torula yeast is single celled plant and used for flavoring. It is Halal.
Grain & Plant based Ingredients	It is 100% ground vanilla beans.
Ingredient from plant	Vanilla extract is flavorant made from vanilla bean extract.
Mineral, Chemical, Synthetic based Ingredient	Vanillin is a flavorant made from synthetic or artificial vanillin.
Ingredients made from plant or vegetable fat	It is made from vegetable fat.
Mineral, Chemical, Synthetic based Ingredient	Vinegar is a acidulant and flavorant. It is made from cider.
Grain & Plant based Ingredients	Vital wheat gluten is a protein obtained from wheat.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Ingredients from plant	It is made from plant or synthetic sources.
Ingredients from plant or animal sources	For the dairy industry it is made from sheep's Lactogen.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Ingredients from plant or animal sources	It is Halal if it is made from plant sources or if it is made from animal sources which are Halal.
Grain & Plant based Ingredients	It is a cereal.
Grain & Plant based Ingredients	Flour obtained by grinding wheat.
